

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**Docket Number (Optional)
000939-085400US

I hereby declare that:

Each Inventor's residence, mailing address and citizenship are stated below next to my name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number US 5,930,179, granted July 27, 1999, and for which a reissue patent is sought on the invention entitled, Program Circuit,

the specification of which

- ☐ is attached hereto.
- ☒ was filed on July 25, 2001 as reissue application number 09/915,906
and was amended on July 25, 2001.
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

- ☒ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b), Korean Patent App. No. 96-25547, filed on June 29, 1996, the same Korean patent application to which the above U.S. patent claimed the foreign priority benefits thereof. Attached is form PTO/SB/2B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawing.
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The patent granted, Pat. No. 5,530,179, recites a comparator, data latch circuit, and control circuit in its independent claim 1. All these components, however, are not necessary to practice certain embodiments of the present invention. In addition, the recited comparator performs comparison bit by bit. A comparison of more than one bit at a time may be performed in certain embodiments of the present invention.

(REISSUE APPLICATION DECLARATION BY THE INVENTOR, page 2)				Docket Number (Optional) 000939-085400US	
All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.
